General Motors

Manufacturer Customer Satisfaction Program issued

- Program #N242435631 SERIAL DATA GATEWAY MODULE
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this campaign.

[Learn more about this campaign](#)

Description: Certain model years and vehicle makes noted in the table above may have a condition where the battery is at risk for a drain following an over-the-air update.

Remedy: Dealers are to reprogram the serial data gateway module.

09/12/2024

General Motors

Manufacturer Non-Compliance recall issued

- NHTSA #24V674
- Transport Canada# 24519
- Recall #N242447990 FAILED BRAKE FLUID LEAK DETECTION
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

[Learn more about this recall](#)

Description: General Motors has decided that certain 2023 model year Chevrolet Silverado 1500 and GMC Sierra 1500 vehicles and 2023-2024 model year Chevrolet Tahoe, Chevrolet Suburban, GMC Yukon, GMC Yukon XL, Cadillac Escalade, and Cadillac Escalade ESV vehicles fail to conform to S5.5.1(a)(1) of Federal/Canada Motor Vehicle Safety Standard (F/CMVSS) No. 135 "Light Vehicle Brake Systems." A driver may not receive an indicator of a loss of brake fluid before the level is below F/CMVSS 135's requirement.

In the event of a brake fluid leak, the vehicle's brake pedal performance may degrade before the BRAKE telltale timely illuminates in accordance with F/CMVSS 135, increasing the risk of a crash. In the event of a brake fluid leak, affected vehicles still meet F/CMVSS 135's stopping-distance requirements.

Remedy: General Motors will update the software in the vehicles' Electronic Brake Control Module (eBCM) to correct the condition. For vehicles that are capable of receiving over-the-air (OTA) updates, owners who have accepted applicable terms and conditions will have the opportunity to accept these software changes using OTA technology without having to bring their vehicle to a dealership. Alternatively, owners may schedule to have the updates performed at a GM dealer.

11/26/2024	23,690	Pennsylvania Motor Vehicle Dept. Pittsburgh, PA Title #8592412301 TR		SALVAGE TITLE/CERTIFICATE ISSUED
11/30/2024		Auto Auction		Vehicle sold

05/30/2025	24,085	North Carolina Motor Vehicle Dept. Fletcher, NC	Odometer reading reported
06/12/2025		North Carolina Motor Vehicle Dept. Fletcher, NC Title #777829251631042	Title or registration issued - New owner reported

Hold on, it looks like the salvage title from Pennsylvania didn't get transferred to North Carolina when this vehicle was sold. This may be a case of Title Washing. Get an inspection before you buy. [Learn More](#)

CARFAX Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 4/16/26 at 10:14:49 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds approximately 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Title Washing

Title Washing is the process through which a vehicle's title is altered to conceal information that would normally be included. This can be accomplished by either physically altering printed documents or reapplying for a title without disclosing its prior history. Since the CARFAX database retains information about branded titles from all 50 states and the Canadian provinces, the CARFAX Report may help uncover potential title washing.
